Eligible borrowers must have fewer than 500 employees located in Vermont and must identify economic harm caused by the COVID-19 pandemic. Economic harm will be measured by a material decline in annual adjusted net operating income from before the COVID-19 pandemic to after it.

To be eligible for a loan, a business needs to have experienced a 25 percent reduction in its adjusted net operating income in 2020 and 2021 combined when compared to 2019. Further, at least 50 percent of the reduction in net operating income must have occurred in 2021.

The Agency will consider previous State or federal assistance in connection with the pandemic, reasonable owner's compensation, noncash expenses, and other adjustments deemed appropriate. Loaned amounts will be used for eligible fixed or operating expenses, and the loan is not to exceed the lesser of \$200,000, six months of eligible cost, or the amount of cumulative decline in adjusted net operating income in 2020 and 2021. VEDA will consult with the Joint Fiscal Office to establish guidelines.

the bill, this program builds on and replaces the Capital Investment Grant Program created in Act 74 of 2021. The Agency will award grants to make investments to retain and expand existing businesses and nonprofit organizations, attract new businesses and nonprofit organizations, and support job creation. Projects in regions and communities that have experienced stagnant or declining grand lists will be given preference.

To be eligible for the program, applicants must be located within the state and can be for-profit, nonprofit, or municipal entities. The applicant must demonstrate that the project has community and regional support; that grant funding is needed to complete the project; that they are leveraging additional sources of funding from local, State or federal economic development programs; and an ability to manage the project. State and locally government operated businesses, businesses with 20 or more locations, and publicly traded companies are ineligible for grants. Grants cannot exceed the lesser of \$1.0 million or 20 percent of the total project cost.

The bill removes the net fiscal impact data model from the program established in Act 74 for the Capital Investment Program and instead requires that the Agency of Commerce and Community Development develop guidelines in coordination with the Joint Fiscal Office and reviewed by the Joint Fiscal Committee. The Agency may also designate one or more sectors for priority consideration in the application process including arts and culture, travel, lodging, tourism, agriculture, and childcare.

The Program no longer requires that relocating workers must work in an occupation on the Vermont Department of Labor's list of "Occupations with the Most Openings" in its "Short Term Employment Projections 2020-2022."

The funds will be used to increase the amount of tax credits that may be awarded to qualified projects. Up to \$2.0 million of the appropriated amount may be awarded to qualified projects located in designated neighborhood development areas.

COVID-19-Related Paid Leave Grant Program

Section 54a establishes the COVID-19-Related Paid Leave Grant Program in the Department of Financial Regulation. The Department will administer and award grants to employers to reimburse part of the cost of providing COVID-19-related paid leave provided to employees during calendar year 2022. Grants also may be used to reimburse employers for unpaid leave for COVID-19-related reasons.

\$16.5 million is appropriated from ARPA SFR funds to the Department of Financial Regulation in FY 2023; not more than seven percent of that appropriation may be used for expenses related to program administration and outreach. Reimbursement of COVID-19-related paid leave or unpaid leave is equal to 67 percent of the greater of minimum wage or the employee's regular hourly wage times the number of

hours reimbursed. The number of hours reimbursed cannot exceed the lesser of 80 hours or two times the employee's average weekly hours. The maximum hourly reimbursement for an employee cannot exceed \$27.50.
